A native of Argentina, Joaquín Canay began dancing Tango as a teenager on the North Side of Buenos Aires, where he studied extensively with Oscar Caballero at La Casona de Marta. Joaquín lived and danced Tango in New York City before moving to Ithaca in August 2003 to join Rina Gendelman in teaching and performing. Since then he has taught classes and workshops throughout the region and across the country. Joaquín's teaching focuses on the leader/follower relationship: the connection between dancers that is at the core of Tango, built on intimacy and musicality. His gentle and enthusiastic approach creates an introduction to Tango one can look forward to.
